# Cancer and Specified Disease

Cancer and Specified Disease insurance pays cash benefits for cancer and 29 other specified diseases to help with the costs associated with treatments and expenses as they happen. This coverage can help pay for hospitalization, surgery, radiation/chemotherapy and more.

Employees can choose between three plan options (Low, High and Premium) depending on their cancer insurance needs and specified diseases. All three plan options cover the same type of services. In most cases, however, the amount of coverage differs based on the option chosen.

## Cost

Coverage Level	Low Option	High Option	Premium Option
<b>Employee Only</b>	\$6.06	\$14.42	\$19.26
<b>Employee and Family</b>	\$10.02	\$23.90	\$31.84

## Examples of Net Cost

Each plan option includes the Cancer Screening Benefit, which pays a benefit for each covered insured **annually** for taking certain tests, regardless of the cost of the test. In addition, since the monthly premium is subtracted from pay before taxes, the employee receives tax savings.

The following are a few examples of how the Cancer Screening Benefit and the tax savings affect the total cost for NCFlex Cancer and Specified Disease Insurance.

Option	Annual Cost	Cancer Screening Benefit	Tax Savings (30% Tax Bracket)	NET Annual Cost
<b>Low: Employee</b>	\$72.72 (\$6.06/month)	\$25	\$21.82	\$25.90 (\$2.16/month)
<b>High: Family</b>	\$286.80 (\$23.90/month)	\$200 (2 @ \$100)	\$86.04	\$76 (\$0.06/month)
<b>Premium: Family</b>	\$383.08 (\$31.84/month)	\$200 (2 @ \$100)	\$114.92	\$68.16 (\$5.68/month)

### Medicaid Information

For individuals who are eligible for Medicaid, this cancer insurance policy may not be the best choice. Benefits assigned under the policy are required to be assigned back to Medicaid.

## Exceptions and Limitations

Allstate Benefits does not pay benefits for a **pre-existing condition** during the 12-month period beginning on the date coverage starts. Any covered loss that is incurred after the 12-month period is payable. A pre-existing condition is a disease or physical condition for which medical advice or treatment was received by the covered person during the 12-month period prior to his or her effective date of coverage.

The policy does not pay for any loss except those due from cancer or a covered specified disease. A diagnosis must be submitted to support each claim.

For complete details on exclusions and limitations, see the Certificate of Coverage located at [www.ncflex.org](http://www.ncflex.org).

## Evidence of Insurability

Evidence of Insurability (EOI) is a way of providing proof of good health. This evaluation may include the employee's current health status, medical history and family history. If an employee is required to submit EOI, Allstate Benefits must approve EOI before coverage becomes effective. The EOI form is available on the "Cancer & Specified Disease" section at [www.ncflex.org](http://www.ncflex.org).

## Portability Privilege

The portability feature allows employees to continue cancer coverage when their employment ends or policy terminates, by paying premiums directly to Allstate Benefits. Employees can contact Allstate Benefits for more information at **1-866-232-1517**.

## Certificate of Coverage

The Certificate of Coverage provides complete details about the benefits and the limits and exclusions. For complete details, review the Certificates of Coverage located on [www.ncflex.org](http://www.ncflex.org).

This coverage does not constitute comprehensive health insurance coverage (often referred to as "major medical coverage") and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.

*The Cancer coverage is provided by Limited Benefit insurance, policy form GVCP2, or state variations thereof. Allstate Benefits is the marketing name used by American Heritage Life Insurance Company (Home Office, Jacksonville, FL), the underwriting company and a subsidiary of The Allstate Corporation.*
