

NCFlex State Insurance Plans provide a variety of pre-tax plans to meet the needs of state employees and their families. To be eligible, you must work 20 hours or more per week (30 hours or more per week for the Disability plan) in a permanent, probationary, or time-limited position. Deductions are withdrawn from your pay on a pre-tax basis, which lowers your taxable income and saves you money. Enroll in any or all of the benefit plans as follows:

Health Care Flexible Spending Account

The Health Care Flexible Spending Account (HCFSA) is a special account that allows you to set aside a portion of your pre-tax income to pay for certain out-of-pocket health care costs. You never have to pay taxes on the money you receive from your HCFSA for qualified expenses. Visit FSASore.com for items that are pre-approved for eligible expenses.

With HCFSA, you may use an NCFlex Convenience Card, which works like a credit card or debit card when paying for these health care expenses. HCFSA is simple and easy to use for qualified expenses not covered by a medical, dental and/or vision plan.

When determining how much pre-tax income to set aside in your HCFSA, plan carefully by writing down all the medical, dental and vision expenses you know you will have during the plan year. You may contribute as little as \$120 per plan year or as much as \$3,200 per plan year to your HCFSA. If your spouse is also a state employee, they may also contribute as much as \$3,200 per plan year.

You can rollover up to \$640 of unused account balances from your HCFSA into the next plan year (2026) as long as you have a minimum balance of at least \$25. Note: for 2024 going into 2025, the rollover amount is \$610.

Dependent Day Care Flexible Spending Account

Similar to the Health Care Flexible Spending Account, you may contribute pre-tax funds to be used for eligible child care expenses. You may contribute up to \$5,000 per household per plan year. You can use the NCFlex Convenience Card to pay for eligible dependent care expenses, up to the amount available in your account.

Accident Plan

The Accident Plan pays cash benefits for specific injuries and events resulting from a covered accident that occurs on or after your coverage effective date. You can use this money however you like; for example, deductibles, other out-of-pocket medical costs, child care, housecleaning, groceries or utilities. Benefits are paid directly to you and pay in addition to any other insurance you may have.

Both Low and High options include a Sports Accident Benefit, annual Wellness Benefit and Travel Assistance Services. The High option has higher payouts and includes a Sickness Hospital Confinement Benefit.
