     tool more easily.

M. Total Rewards/Salary Administration: Appointment Types and Career Status Policy  
   • Add text in this policy to clarify how trainee progressions work and make clear  
     that trainee status is not a type of appointment. With these changes, the tool of  
     trainee recruitment will be more easily accessible for agencies.

N. Diversity and Workforce Services: Separation Policy  
   • Add to the portion of the Separation Policy on resignations several best  
     practices and the concept — found in precedent concerning North Carolina state  
     government resignations — of delivering the resignation to the appointing  
     authority.  
   • In addition, revise the policy to reflect statutory updates and make needed  
     clarifications.

O. 25 NCAC 01C .1007 Separation (Administrative Code rule – to be resubmitted for  
   public comment)  
Subdivision (a)(3) of the Rule allows separation in a situation where, following a work-  
related injury, an employee is unable to return to all of a position’s essential duties due  
to a medical condition or the vagueness of a medical prognosis. The current Rule  
specifically mentions separation in this situation when an employee is on workers’  
compensation leave of absence. The revised Rule would specify that separation in this  
situation also applies when an employee is working with temporary or permanent work  
restrictions due to a work-related injury. This change has been approved by the  
Commission at previous meetings. However, it was discovered that inadvertently, the  
wrong version of the rule was issued for public comment. The version published in the  
North Carolina Register included a phrase that was not intended to be included and was  
not part of the text provided to the Commission for approval. The rule is now being  
submitted again to the Commission, using the language that was intended. This version
also includes changes suggested by Rules Review Commission staff. The Rules Review Commission staff comments make technical changes and correct the rule to precisely match statutory language in N.C.G.S. § 126-34.02.
