# Personnel Function Report Executive Summary 

In compliance with N.C. General Statute 126, the State Personnel Commission is required to report on certain personnel functions to the Joint Legislative Commission on Governmental Operations.

## 1. Workforce Representation:

The State of North Carolina reported 87,735 full-time, permanent SPA employees as of December 31, 2011. This represents a decrease of 3,215 (-3.5\%) employees from 2010, and 3,808 (-4.2\%) employees since 2009. Employee decreases were experienced in both the agency and university systems.

| Workforce | White <br> Males | White <br> Females | Black <br> Males | Black <br> Females | Other <br> Minority <br> Males | Other <br> Minority <br> Females | TOTAL |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Agency | 25,730 | 17,529 | 8,140 | 12,213 | 1,515 | 1,110 | 66,237 |
|  | $38.8 \%$ | $26.5 \%$ | $\mathbf{1 2 . 3 \%}$ | $\mathbf{1 8 . 4 \%}$ | $\mathbf{2 . 3 \%}$ | $\mathbf{1 . 7 \%}$ |  |
| University | 6,121 | 7,953 | 2,052 | 3,915 | 574 | 883 | 21,498 |
|  | $28.5 \%$ | $37.0 \%$ | $9.5 \%$ | $18.2 \%$ | $2.7 \%$ | $\mathbf{4 . 1 \%}$ |  |
| TOTAL | 31,851 | 25,482 | 10,192 | 16,128 | 2,089 | 1,993 | 87,735 |
|  | $36.3 \%$ | $29.0 \%$ | $11.6 \%$ | $18.4 \%$ | $2.4 \%$ | $2.3 \%$ |  |
| Previous | 33,001 | 26,768 | 10,476 | 16,548 | 2,120 | 2,037 | 90,950 |
| Total -2010 | $36.3 \%$ | $29.4 \%$ | $11.5 \%$ | $18.2 \%$ | $2.3 \%$ | $\mathbf{2 . 2 \%}$ |  |
| Previous | 32,938 | 27,364 | 10,509 | 16,692 | 2,065 | 1,975 | 91,543 |
| Total -2009 | $36.0 \%$ | $29.9 \%$ | $11.5 \%$ | $\mathbf{1 8 . 2 \%}$ | $2.2 \%$ | $2.2 \%$ |  |

NOTE: The data collection system in BEACON allows for employees to be assigned to an "Ethnicity Unknown" category. As of $12 / 31 / 11$ there were 91 employees in this category. Those employees have not been included in this analysis.

Total State Representation by Demographic Group (2011)

$\square$ White Males
$\square$ White Females
-Black Males
-Black Female
-Other Minority Males
-Other Minority Females

North Carolina State Government cabinet and council of state agencies employed 66,237 employees as of December 31, 2011. This accounted for 75\% of the total 87,735 employees. North Carolina State Government universities employed 21,498 employees as of December 31, 2011. This accounted for $25 \%$ of the total 87,735 employees.

The employees labeled as 'other minority males' and 'other minority females' include Hispanic, American Indian and Asian employees. Overall, these employees represented $4.7 \%$ of the entire workforce or 4,082 employees (a decrease of 75 since 2010). Within the agency workforce, American Indian employees represented the largest 'other minority group'. Within the university workforce, Asian employees represented the largest 'other minority group'. Specifically, these groups represented the following:

| Other <br> Minority <br> Workforce | Hispanic <br> Males | Hispanic <br> Females | Asian <br> Males | Asian <br> Females | American <br> Indian <br> Males | American <br> Indian <br> Females | TOTAL |

| $\square$ American Indian Males |
| $\square$ American Indian |
| Females |

The following chart details the change in total workforce representation since 2000. The chart reflects an increase in workforce representation until 2001. From December 31, 2001 to December 31, 2002 the agency and overall workforce decreased. This trend for agencies and overall totals reversed in 2003 as the workforce total increased for both. This trend continued until 2009.

In 2009 through 2011, the State of North Carolina experienced an economic crisis that resulted in a hiring freeze as well as a reduction-in-force throughout state government. As a result, both the agency and university workforce totals decreased. The impact of the reduction in the number of agency and university employees was a corresponding reduction in the total number of employees.

Workforce Representation (2000-2011)

## 2. New Hires:

A new hire or new appointment is the initial employment of an individual to a position or the reemployment of an individual who is either not eligible for reinstatement or, at the agency's option, is not offered reinstatement. The State of North Carolina hired 4,957 new full-time, permanent SPA employees during calendar year 2011, a reduction of 2,001 (-28.8\%) employees from 2010.

| New Hires | White <br> Males | White <br> Females | Black <br> Males | Black <br> Females | Other <br> Minority <br> Males | Other <br> Minority <br> Females | TOTAL |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Agency | 1,215 | 858 | 594 | 849 | 129 | 99 | 3,744 |
|  | $32.4 \%$ | $22.9 \%$ | $\mathbf{1 5 . 9 \%}$ | $\mathbf{2 2 . 7 \%}$ | $\mathbf{3 . 5 \%}$ | $\mathbf{2 . 6 \%}$ |  |
| University | 359 | 466 | 114 | 194 | 33 | 47 | 1,213 |

## Number of New Hires in State Government - 2004 to Present:

| Year | Number of New <br> Hires | Number of <br> Employees | Percent |
| :---: | :---: | :---: | :---: |
| 2004 | 11,144 | 86,110 | $12.9 \%$ |
| 2005 | 10,199 | 86,504 | $11.8 \%$ |
| 2006 | 11,207 | 88,917 | $12.6 \%$ |
| 2007 | 9,949 | 90,894 | $10.9 \%$ |
| 2008 | 7,133 | 93,542 | $7.6 \%$ |
| 2009 | 3,708 | 91,543 | $4.1 \%$ |
| 2010 | 6,958 | 90,950 | $7.7 \%$ |
| 2011 | 4,957 | 87,735 | $5.6 \%$ |

## 3. Compensation Levels:

This section of the report analyzes salary distributions in 10 categories ranging from salary grades 50-54 through 85 and higher, non-graded and t-graded classifications.

## AGENCY:

Overall, employees in salary grade range 60-64 consisted of the highest level of representation, comprising $27.8 \%$ of the workforce. Employees in non-graded (mostly Career-Banded) classifications consisted of the second highest percentage of employees representing 26.5\% of the agency workforce.

Total Agency Workforce by Salary Grade Range (2009, 2010, 2011)

NOTES:

1. The data collection system in BEACON allows for employees to be assigned to an "Ethnicity Unknown" category. As of 12/31/11 there were 91 employees in this category. Those employees have not been included in this analysis.
2. Employees in medical grades have been excluded. In 2011, these employees represented 278 employees or $0.4 \%$ of the total workforce.
3. Flat rate employees consisted of less than 0.002 percent of the representation.
4. T-grades are assigned specific salary grades, with corresponding minimum and maximum ranges.

Demographic Analysis: Employees were concentrated in different salary grades with black males and black females representing a significant percentage of employees at the lower salary grades.

## Percentage of Representation by Salary Grade (Agency)

|  | Highest Percentage <br> of Representation | $\mathbf{2}^{\text {nd }}$ Highest <br> Percentage of <br> Representation | $3^{\text {rd }}$ Highest <br> Percentage of <br> Representation |
| :--- | :--- | :--- | :--- |
| White Male | Banded $(53.9 \%)$ | Grades 85+ (50.5\%) | Grades 80-84 (47.7\%) |
| White Female | Grades 70-74 $(38.9 \%)$ | Grades 55-59 (38.7\%) | Grades 75-79 (38.1\%) |
| Black Male | Grades 50-54 $(21.6 \%)$ | Grades 60-64 (18.8\%) | Grades 55-59 (11.1\%) |
| Black Female | Grades 55-59 (36.6\%) | Grades 50-54 (33.4) | Grades 60-64 $(22.1 \%)$ |

In the following chart, average salary is analyzed by demographic group and salary grade range. In this analysis, white and black males received the highest average salaries in salary grade range $85+$, the highest in state government. In grades $80-84$, white males and black females earned the highest average salaries.

Average Salary by Demographic Group (Agency)

NOTE: Jobs in T-grades and/or banded classifications can range from traditional SG 50-85. For this reason, employees in this pay structures have not been included in the average salary chart. They are included in the detailed analysis on the following page.

| \% Represented | 53.928 | 22.065 | 9.736 | 8.568 | 23.757 | 32.439 | 1.618 |
| Average Salary | 49,658 | 55,561 | 42,543 | 50,635 | 48,429 | 54,391 | 49,719 |

NOTE: Due to the inclusion of average salary, other minority males and females did not generate statistically significant percentages due to low levels of representation by salary grade. They are included in the total minority analysis.

Non-Graded/Banded Classifications: State agencies had 17,553 employees in non-graded classifications. This figure represents the first decrease in nongraded employees since 2007.

- 2007 - 12,914
- 2008-13,897
- 2009-18,458
- 2010-18,558
- 2011-17,553

The Career-Banded (non-graded) compensation system in the State of North Carolina collapsed existing classifications into broad classifications that are grouped into Job Families as are the graded classifications. Job Families are not managed by unique salary minimums and maximums, but the broad Careerbanding classifications have minimums and maximums unique to them. The ten Job Families include:

1. Administrative and Managerial
2. Information Technology
3. Law Enforcement and Public Safety
4. Information and Education
5. Human Services
6. Medical and Health
7. Institutional Services
8. Operations and Skilled Trades
9. Engineering and Architecture
10. Natural Resources and Scientific.

Employees in Non-Graded Classifications 2009 through 2011 (Agency)

## UNIVERSITY:

Overall, classifications in non-graded (or banded) grades consisted of the highest percentage of employees representing 99.7\% of the university workforce. This figure increased from 87.5\% in 2008.

Because $99.7 \%$ of all university employees are in non-graded classifications, the demographic distribution mirrors that of the overall representation figures for the university system.

## Employees in Non-Graded Classifications 2009 through 2011 (University)

Competency Levels: In order to provide a more detailed analysis of the salary structure in the university system, the next table provides competency levels by demographic group. Each banded classification is divided into three competency levels (contributing, journey and advanced). Each competency level is associated with a minimum and maximum rate of compensation.

## Competency Levels by Demographic Group (University)

|  | White <br> Males | White <br> Females | Black <br> Males | Black <br> Females | Other <br> Minority <br> Males | Other <br> Minority <br> Females | Total |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Advanced Level | 1566 | 2033 | 245 | 622 | 110 | 133 | 4709 |
| Percentage | 33.2 | 43.1 | 5.2 | 13.2 | 2.1 | 2.7 |  |
| Avg. Market Index* | 93.4 | 94.6 | 94.1 | 95.0 | 91.9 | 89.1 | 94.1 |
|  |  |  |  |  |  |  |  |
| Journey Level | 3217 | 3994 | 942 | 1857 | 253 | 380 | 10643 |
| Percentage | 30.2 | 37.5 | 8.8 | 17.4 | 2.3 | 3.4 |  |
| Avg. Market Index | 97.5 | 97.4 | 96.5 | 96.9 | 93.9 | 94.8 | 97.1 |
|  |  |  |  |  |  |  |  |
| Contributing Level | 1153 | 1529 | 795 | 1273 | 198 | 325 | 5273 |
| Percentage | 21.8 | 29.0 | 15.0 | 24.1 | 3.6 | 6.1 |  |
| Avg. Market Index | 101.5 | 104.3 | 102.6 | 103.6 | 99.8 | 100.0 | 102.9 |
|  |  |  |  |  |  |  |  |
| Invalid Level* | 155 | 210 | 69 | 141 | 11 | 42 | 628 |
|  |  |  |  |  |  |  |  |
| Total | 6091 | 7766 | 2051 | 3893 | 572 | 880 | 21253 |
| Percentage | 28.6 | 36.5 | 9.6 | 18.3 | 2.6 | 4.0 |  |
| Avg. Market Index | 94.7 | 95.4 | 95.3 | 95.3 | 94.7 | 92.6 | 95.0 |

Average Market Index = relationship of pay to the established market rate. Invalid Level = no rating.

White female employees had the highest level of representation at the advanced, journey and contributing competency levels, and they correspondingly make up the largest percentage of the overall university workforce. All demographic groups except other minority males had an average market index above 100\% at the contributing level. At the advanced level, black females had the highest average market index. At the journey level, white males had the highest market index.

Competency Level by Demographic Group (University)

## 4. Disciplinary Actions:

In calendar year 2011, there were 4,023 disciplinary actions issued to agency and university employees. In 2010, there were 3,798 disciplinary actions issued. This represents an increase of 225 actions or $5.92 \%$. The largest number of disciplinary actions, 1,218 (30.3\%) were issued to White males although they constitute $36.3 \%$ of the state's workforce. Black females received 996 disciplinary actions or $24.8 \%$ of the total while representing only $18.4 \%$ of the state's workforce. Black males received 930 disciplinary actions or $23.1 \%$ of the total although their presence in the workforce is only $11.6 \%$. White females received 735 or $18.2 \%$ of all disciplinary actions although their workforce representation is 29.0\%. Other males and other females were given 144 disciplinary actions or $3.6 \%$ of the total; their workforce representation is $4.7 \%$.

Of all the disciplinary actions issued, 3431 or $85.3 \%$ occurred in State agencies, and 592 actions, or 14.7\% occurred in State universities. In 2010, disciplinary actions were split with $76.5 \%(2,907)$ of disciplinary actions occurring in State agencies and 23.4\% (891) occurring in State universities.

Total Disciplinary Actions by Agency/University and Race/Sex

| Discipline | White <br> Males | White <br> Females | Black <br> Males | Black <br> Females | Other <br> Minority <br> Males | Other <br> Minority <br> Females | TOTAL |

## Five-Year Disciplinary Action Trend

The five-year disciplinary action trend indicates a peak of 4312 disciplinary actions in 2007, reducing to 3340 in 2008, and rising to 4023 by 2011. The trend is illustrated in the chart below:

Five Year Disciplinary Action Trend

## Disciplinary Action Index

The disciplinary action index is an expression of the proportionality of disciplinary actions for each race-sex group ion the study. The index is calculated as the number of disciplinary actions per 1000 employees in each race-sex group. For example, the number of disciplinary actions administered to white males would be divided by the product of the total number of white males in the workforce multiplied by .001 .

Disciplinary Action Index by Race and Sex

The data in the table suggest that Black Males and Black Females receive disciplinary action out of proportion to other race-sex groups. To understand this phenomenon, the disciplinary process should be studied with particular attention to the consistency of administration of discipline for same or similar issues across race-sex groups.

## Disciplinary Actions by Type

In 2011, 3,326 (82.7\%) of disciplinary actions were written warnings and 451 (11.2\%) of the actions were dismissals. There were 45 demotions (1.1\%) and 201 suspensions without pay (5.0\%). There were 4,023 total disciplinary actions which represent an increase of 225 actions or $5.9 \%$ over 2010.

Of the employees who were dismissed, 124 (28.1\%) were white males, the highest percent of any demographic group. Black males received 111 or 24.6\% of the dismissals, while black females received the next highest number of dismissals at 109 or $24.7 \%$.

## Disciplinary Actions by Demographic Group - 2011

## 5. Grievances:

State government employees (agency and university) filed a total of 766 grievances during calendar year 2011, ( 75 more grievances than in 2010). Of the 766 grievances filed in 2011, 11.4\% were based on discrimination, $14.1 \%$ were based on policy violations, and $73.2 \%$ were based on disciplinary actions.

State agencies reported that employees filed 524 grievances during calendar year 2011, representing $68.4 \%$ of the total grievances filed. Universities reported that employees filed 242 grievances in 2011, representing $31.6 \%$ of the total number of grievances filed.

## Five-Year Grievance Trend

The five-year grievance trend indicates that grievances experienced a decline during the 2008 calendar year, only to begin a steadily increase in 2009 that has continued through 2011. During 2011, the 766 grievances filed indicate the highest level in 5 -years of data.

Five-Year Trend of the Total Number of Grievances

## Grievances by Type

In 2011, grievances were filed in three major areas: response to a disciplinary action, allegation of illegal discrimination, or claim of a policy violation. Almost three-quarters of the grievances were based on disciplinary action. The remainder was almost evenly divided between alleged illegal discrimination and policy violations. The chart below reports the grievances by type

## Settlements

The data in this report reflect the costs of settlements that were entered into between State agencies and universities and employees (or former employees) who filed internal grievances and/or contested cases under the State Personnel Act. The data in this report does not reflect settlements in other employmentrelated legal areas such as charges/lawsuits under Title VII of the 1964 Civil Rights Act, the Fair Labor Standards Act, the Americans with Disabilities Act or other State and federal statutes.

In calendar year 2011, there were a total of 57 settlements entered into by agencies and universities as a result of grievances and contested cases filed by employees and former employees. The total cost reported for the 57 settlements was $\$ 1,095,562.72$ or an average of $\$ 19,220.40$ per settlement. The total is an increase of \$352,628.09 over 2010.

Of the total amount, $\$ 1,002,305.90$ was reported as back pay and $\$ 93,256.82$ was reported as attorneys' fees. No agency or university reported front pay as a part of an approved settlement agreement.

## Agencies

In calendar year 2011, State agencies entered into 50 settlements of grievances and/or contested cases filed by employees. The total cost of settlements from State agencies was $\$ 936,650.01$ or an average of $\$ 18,733.00$ per settlement.

## Universities

State universities reported seven settlements totaling \$158,912.71 or an average of $\$ 22,701.81$ per settlement.

## 6. Equivalencies:

An equivalency is defined as any deviation from the required minimum training and experience, not including substitution of directly related education for experience, or directly related experience for education as stated on the class specification. For calendar year 2011, there were no instances that an agency or university used an equivalency.

## 7. Demographic Analysis:

This report reviews personnel functions in several areas. This section of the executive summary charts the percentage of new hires, disciplinary actions and grievances against the overall level of workforce representation in each demographic group in 2000 and 2011. Please note that other minority males and females are not included in this analysis due to their low overall representation rates (less than 2\%). Significant trends related to other minority males and females are included in each previous section of the report.

White Males - White males consisted of 30\% of all disciplinary actions, an increase from the year 2000, and the highest level of any demographic group. White male employees filed $21 \%$ of all grievances in 2011, a rate less than their overall representation in the workforce. The overall representation level of white males decreased slightly, from $37 \%$ to $36 \%$, while new hire activity increased slightly during the same 11 year period.

2000 versus 2011

White Females - In 2011, white female employees had levels of representation, new hires, and grievances which were lower than those rates in 2000. White female employees consisted of $29 \%$ of the workforce and $27 \%$ of the new hires during 2011, while filing $18 \%$ of all grievances, the lowest rate of any of the four evaluated demographic groups. White female employees represented $18 \%$ of all employees receiving a disciplinary action in 2011, up slightly from the 2000 rate of $16 \%$.

2000 versus 2011

Black Males - Black male employees consisted of $12 \%$ of the representation and $14 \%$ new hires during 2011. Black male employees received $23 \%$ of all disciplinary actions during 2011, a reduction from $30 \%$ during 2000. Also during 2011, black male employees filed $27 \%$ of all grievances, a rate that increased from $20 \%$ in 2000 and 2010. This represents the second-highest level of grievances filed in 2011, less than only black female employees.

Black Females - Black female employees represented $18 \%$ of the workforce representation in 2011, up slightly from 2000. They accounted for $21 \%$ of all new hires, a rate equivalent to that in 2000 . Their level of discipline and grievance activity exceeded their workforce representation. In 2011, black females received $25 \%$ of all disciplinary action and filed $30 \%$ of all grievances, the highest percentage of grievances filed by any demographic group.

2000 versus 2011

[^0]:    **2 agency disciplinary actions reported included 2 individuals whose demographic was listed as "unassigned" and 1 whose demographic was listed as "two or more races."

[^1]:    *Disciplinary actions for Other Minority Groups are detailed in the complete report.
    **Table totals do not balance because five warnings were not assigned to a race-sex group.
