Appendix E – North Carolina Career Banding Initiative	159

Note: This printed publication is current as of 7/01/07. The on-line version located on the Office of State Personnel webpage, www.osp.state.nc.us, is updated after every State Personnel Commission meeting (approximately every two months) and contains the most accurate classification and salary range information.

FOREWARD

The North Carolina Office of State Personnel, through the authority granted by the State Personnel Commission, maintains classification and pay structures for all positions subject to the provisions of General Statute 126, the State Personnel System. This statute requires the Commission to establish classification plans to govern position classification and reclassification, and to develop compensation programs which provide minimum, maximum, and intermediate rates of pay.

The Office of State Personnel currently maintains the following classification and salary range structures:

- A traditional graded structure where classifications are assigned a numerical grade that corresponds to a specific salary range (the majority of classifications are in this structure);
- Specific pay plans developed for occupational groups where a traditional graded structure does not capture operational needs; and
- A banded pay structure used as a framework for exploring the use of career banding in State Government.

The State Personnel Commission is responsible for the approval of additions or revisions to the plans recommended by the Office of State Personnel. These recommendations may include new classifications, modification of classification concepts, changes in assigned salary ranges, or other necessary actions resulting from classification and/or compensation studies. The Commission considers recommended changes during their bimonthly meetings.

The overall salary schedule is subject to approval by the North Carolina General Assembly including any general or across-the-board (cost-of-living) changes. The total compensation provided by the State as an employer includes base pay and benefits. The major (core) components of the benefit package include health insurance, a retirement program, paid vacation and sick leave, and related employer costs. There are also warranty supplemental benefits made available to employees, such as dental and vision care programs, supplemental disability insurance, and additional retirement/deferred compensation plans; many of these benefits are offered on a pre-tax basis.

Classification Studies

Office of State Personnel staff conducts classification studies to determine needed changes to the pay plan in association with agency and university human resources specialists. These studies range in scope from focused work unit or program reviews to general statewide occupational reviews. Classification studies are frequently supplemented by tailored compensation studies for the class(es) under review. Recommendations for changes to the pay plan resulting from studies are submitted to the State Personnel

Commission for approval and, once approved, administration is generally delegated to the agencies and universities.

Compensation Studies

Office of State Personnel staff is responsible for conducting labor market surveys and analyses of the information collected. The study process involves determining the specific jobs to be surveyed, the identification of competitors to be surveyed, and the scope of competition (local, regional, national).

The types of compensation studies conducted include:

- Annual general market surveys for benchmark classes which provide information to support OSP's recommendations to the Governor's Office concerning general or across-the-board changes to the pay plan;
- Surveys of specific jobs and occupations in support of classification studies; and
- Surveys of specific jobs and occupations in response to identified recruitment / retention problems.

Salary Administration

Policies approved by the State Personnel Commission and the practices and procedures adopted by OSP to implement these policies govern salary administration. These policies cover the hiring of new employees, promotions, demotions, leave without pay, range revisions, and other actions affecting pay. OSP is responsible for administering these policies and works closely with client agencies and universities on administration of policies relating to position classification changes and interpretation of recruitment standards. The effect that these policies have on State Government operations are continuously monitored and evaluated by OSP. These policies are published in the State Personnel Policy Manual and are contained in the on-line version maintained on our website (www.osp.state.nc.us).

INTRODUCTION

The Office of State Personnel annually publishes the official pay plans for the State as a classification and compensation resource for human resources specialists and managers. This information, used in connection with other resources such as classification specifications, allows users to determine how new and redefined positions may fit within the classification and pay structures based on exact matches or occupational relationships.

The classification and pay structures are not static. The State Personnel Commission, at its bimonthly meetings, routinely approves revisions and modifications necessary to respond to changing market conditions, new program initiatives, or operational needs. Users of the published plan should update the information using post-Commission memoranda. This edition is the official listing of established classifications and salary ranges approved by the State Personnel Commission for use in North Carolina State Government as of July 1, 2007.

The Office of State Personnel maintains an on-line version of the pay plans on our website (www.osp.state.nc.us). This version is updated after every Commission meeting.

The Plan includes the following reference guides:

- An alphabetic listing of classification titles;
- A listing of classifications by schematic code allowing the user to view related jobs and job families;
- A listing of established trainee salary progressions (Appendix A);
- A listing of apprenticeship rates for trades classes (Appendix B);
- Reserved area for future occupational pay plans (Appendix C);
- The Physician Salary Schedule (Appendix D); and
- Information on the North Carolina Career Banding Initiative and the banded pay structure (Appendix E).

The alphabetic and occupational listing of classifications include the following information:

- Official classification titles;
- Assigned schematic codes, also used in entering Personnel Management Information System (PMIS) transactions;
- Assigned pay structures (salary grade, pay band, or occupational pay plan); and
- The assigned salary range minimum, midpoint, and maximum amounts.

OCCUPATIONAL GROUPS

OCCUPATIONAL GROUP LISTING OF TITLES

This section presents the schematic code structure used by the State of North Carolina and a listing of classification titles by assigned code. The assignment of classifications to occupational groups is based on the nature of work, educational requirements, and the required knowledge and skills. The code structure allows the user to view classifications with similar work characteristics and recruitment requirements.

The work recognized in some classifications may reflect elements that are associated with several different occupational groups. In these cases, the classes are assigned to the occupational group which best represents the dominant characteristics used in determining recruitment standards and identifying an appropriate salary range.

The schematic code consists of five digits that are used to indicate the major and minor occupational groups and the specific class or class series. The first digit is zero for all the current schematic codes. The second and third numbers identify the major and minor occupational group. Usually, minor groupings are assigned a block of one hundred numbers such as:

00400 Clerical – Office Management Occupational Group
00600 Purchasing and Related Classes
00700 Accounting and Auditing

The fourth and fifth digits usually indicate the various individual classes and class series found within the minor group. For example, in the 00400, Clerical – Office Management Occupational Group, there are three levels of Administrative Secretary recognized and assigned the following codes:

00427 Administrative Secretary I
00428 Administrative Secretary II
00429 Administrative Secretary III

The codes assigned to a classification series typically run sequentially. However, this is not always the case. The user should cross-reference this information with the alphabetic listing to ensure that all levels within a class series are identified.

Schematic codes are also an integral part of the Personnel Management Information System (PMIS). Personnel transactions require input of the assigned code, and PMIS generates a variety of reports using these codes.

EXPLANATION OF SCHEMATIC CODES

Schematic codes, which group classes based on required knowledge and skills, educational requirements, and similarity of work, have been assigned to each class. These codes are designed to assist classifiers in identifying related classes and to assist managers in planning for and designing new or revised positions. The schematic system, outlined on the following pages, divides classes into twelve major occupational groups. Within each of these major groups, classes are further divided into minor occupation groups. Please note that some classes are difficult to categorize as they contain elements found in several occupational groups. These classes have been assigned to the occupational group which best represents them.

APPENDIX "A" FOOTNOTES

(July 1, 2007 LI of 4.0%)

- (1) EOD for mental health or child development associate degree with six months practicum in a similar setting beginning at 12-month rate.
- (2) EOD for Master's degree in a human services field at 18-month rate.
- (3) Employees may be promoted to the full class when licensure requirements are met.
- (4) This trainee provision is designed to qualify persons for the first (I) and second (II) levels of the class series.
- (5) Promotion through the trainee status to the first level of the class series is dependent not only on successful work experience, but also on the completion of required academic coursework.
- (6) Physics graduates may start up to the 12-month rate and progress according to the schedule throughout the remainder of the trainee progression. Depending on market rates, Health Physics, Nuclear Physics, or Nuclear Engineering graduates may start up to the 30-month rate and progress according to the schedule throughout the remainder of the trainee progression. However, these graduates must stay in trainee status for a minimum of one year even if hired at the 30-month rate.
- (7) Graduates of one-year technical school programs in air conditioning may start at the 12-month rate; graduates from two-year technical school programs in air conditioning may start at the 24-month rate.
- (8) Trainee designed to qualify persons for the Associate Management Engineer and Management Engineer I classes.
- (9) EOD for two-year college graduate beginning at hiring rate. EOD for four-year college graduate beginning at 24-month rate.

APPENDIX "A" FOOTNOTES

(July 1, 2007 LI of 4.0%)

- (10) This trainee progression is defined for both the Staff Psychologist I and II levels. Applicants must apply for licensure within 30 days of employment. The period of time an individual will remain in Trainee status is determined by the required experience at the different levels. Persons working through the Trainee progression to a Staff Psychologist II position may receive the additional 12-month increase before qualifying for the class.
- (11) This trainee progression is defined for both the Senior Psychologist I and II levels. Applicants must apply for licensure within 30 days of employment. The period of time an individual will remain in training is determined by the required experience and by the time required to obtain permanent licensure. When all requirements are completed, the employee may be promoted to the minimum of the level of the classified position.
- (12) EOD rate is for individuals licensed at the Licensed Psychologist level, but without required experience. The period of time an individual will remain in training is determined by the required experience necessary to obtain permanent licensure status and by that required by the program specialty. When all requirements are completed the employee may be promoted to the minimum of the class.
- (13) A high school graduate who has completed a six months Pharmacy Technician Training course can enter at the six-month rate.
- (14) Length of time required to attain skill level required for the full class will vary. Progression through the trainee status is based upon satisfactory performance and progress toward skill level required. Employees may be placed in full class when they reach required skill level and when it is determined that they are performing duties reflective of the full class.
- (15) Four-year Physical Science degree graduates may start up to the 12-month rate, and progress according to the schedule throughout the remainder of the trainee progression.
- (16) Engineering graduates start at the 6-month rate of this progression.

APPENDIX E

APPENDIX “E”

NORTH CAROLINA PILOT BANDING INITIATIVE

For the past few years the State of North Carolina has explored the possibility of new pay and human resource systems to strengthen government services for citizens and create an atmosphere where its employees can have better career opportunities. As systems prove to be useful they will be gradually phased in over the coming years to offer many advantages to managers and employees, and to provide our citizens with better and more efficient services.

There are 86,000 employees in North Carolina’s graded salary plan with 47 separate pay grades. There are 12 occupational groups that have approximately 6,125 job classes. The innovations that are being developed and tested by the Office of State Personnel include career banding salary structures and a pay philosophy that recognizes and compensates employees for competencies on the job. These modern compensation practices are widely used by both public and private employers and are being tried in North Carolina State Government as we attempt to remain competitive for highly-recruited skilled employees.

Banding is the practice of managing compensation within a few expanded pay ranges rather than a large number of narrow pay grades. Banding will simplify our current classification structure both vertically and horizontally to streamline the classification plan. The result is far fewer levels and much more broadly defined job classes.

Expected advantages of banding in North Carolina include:

- Multiple career paths that recognize and reward both lateral job growth and supervision/management responsibilities;
- Reduced number of class levels, simplified classification process, and reduced administrative cost and effort with increased emphasis on appropriate pay;
- Developing a more widely skilled work force that will simplify organizational change;
- Increased responsiveness to job change; and
- Promoting team focus.

As with any new innovation there are obstacles to overcome. The expected challenges of implementing a career banding system include:

- Considerable commitment required of personnel resources for conversion;
- Inclusion of human resource programs such as performance management and recruitment to reflect the skill-based and competency-based strategies that may accompany career banding structure;
- Increased requirement for management and employee training;
- Development and maintenance of new cost control measures;

APPENDIX “E”

- Increased responsibility managers must assume in the areas of compensation and employee evaluation; and
- The difficulty very structured hierarchical class series with long traditions may have transitioning to the new banded system.

The State Personnel Commission has approved the pay bands below for pilot programs exploring the use of banding structures in State Government.

N.C. PILOT BANDS	MINIMUM	MAXIMUM

NORTH CAROLINA CAREER-BANDING

As a direct result of trying several types of banding pilot programs using the above banded pay structure the State of North Carolina has chosen to pursue Career-banding as its new class and pay system. Career-Banding has many similarities to the pilots that were tested. All of the above mentioned advantages and challenges are the same. The principle difference is in the final appearance of the pay structure. Instead of having defined bands A through F as shown above, the Career-banded Pay Plan will have pay Minimums and Maximums for each of the identified Job Families. Within each of the Job Families career-banded classes will be developed with Journey Market Rates as well as their unique pay minimums and maximums. Additional market reference rates for each career-banded class will developed through market study for use by managers to manage their employees' pay.

As career-banded classes are developed and approved they will be published in a separate document from this Pay Plan Book. The Career-banded Pay plan book can be found on OSP's Web site. Eventually, as all of the classes in the graded system are converted to the career-banded system, the Career-banded Pay Plan book will replace the traditional Salary Plan book.
