State Human Resources Director Report
Director Neal Alexander began by expressing gratitude to the Commissioner for their time and efforts to the Commission. Director Alexander continued by speaking about the progress of the Compensation project. Director Alexander spoke about calling this meeting to proceed with approving additional Class Specifications, so that February’s Commission agenda can focus on
approving the final group of Classification Specifications and a number of other items related to Human Resources Policies and procedures.

Classification Specifications for Compensation Project

Dennis Schoch, HR Partner, updated the Commission on actions that had been taken on Classification Specifications that were considered at the December meeting. The majority of comments made by the Commission were accepted and incorporated into the Classification Specifications. He then went through the proposed Classification Specifications by job families that were ready for Commission review and requested approval of approximately 127 classification specifications representing work in 12 of the 19 new job families. Senate Bill 402, “The Appropriations Act of 2013”, funded and directed the Office of State Human Resources (OSHR) to conduct the Statewide Compensation System Project. Currently, employees are classified and compensated under two non-integrated pay systems, neither of which is functioning optimally. The purpose of this project is to create a modern and streamlined compensation system for state government that is equitable, market-responsive, and values employee performance. A key aspect of the project has been the creation, consolidation, streamlining and standardization of classification concepts. Classification Subject Matter Expert (SME) teams from OSHR and all state agencies have been involved in developing these concepts. Once approved, the SME teams, along with additional Classification and Compensation staff from the agencies, will analyze current position description information and allocate all state agency jobs to the new concepts. Later, the concepts will be appropriately market-priced and/or slotted into new market-based salary structures. After discussion and questions by the Commission, Dennis requested a motion to approve the Classification Specifications.

**Motion:** Commissioner Falls made a motion to approve the Classification Specifications.

**Seconded:** Commissioner Beamon seconded the motion.

The motion carried.

Adjournment

Chair Manning asked if there were any other business items to be heard during the business session. There being no additional items on the agenda, Chair Manning asked for a motion to adjourn the business session.

**Motion:** Commissioner Eller made a motion to adjourn the business session.

**Seconded:** Commissioner Beamon seconded the motion.

The motion carried.
