HEALTH CARE SUPERVISOR I

CLASS CONCEPT

Employees in this class supervise health care technician staff who provide for the quality care, welfare, safety and security of individuals in state psychiatric hospitals, developmental centers, neuro-medical treatment centers, or alcohol/drug treatment centers. Employees are responsible for the operation and management of staff and services on an assigned shift. Employees may participate in the selection and training of direct care workers; train and mentor new staff; prepare the work schedules; ensure work assignments are followed; ensure daily safety and sanitation of the work unit; and participate in the appraisals of staff. Work involves participation in programming, establishing priorities and implementing program objectives. Employees ensure that quality care and programs are delivered to all individuals in the unit. Work is performed under the supervision of clinical (e.g., nursing) and/or professional program staff.

Work will involve other closely related duties.

EXAMPLES OF WORK

Participate in the selection and training of health care staff; develop and implement work plans; advise and counsel staff on job performance and conduct; provide direct supervision to staff; ensure that staff have access to tools and information for knowledge and skill development and coach employees in development; model work assignments for employees; maintain and monitor staff leave and time; and participate in disciplinary and grievance processes.

Establish goals and objectives for the assigned work unit and shift; plan and make work schedules; plan work assignments; set and monitor short term work priorities; ensure coverage of all activities; instruct staff as needed; assess needs of client population in order to develop program and work operations; ensure adherence to standards; supervise the delivery of quality care of individuals; refer individuals to available services; participate in the treatment team process; and identify problems and bring them to the attention of the appropriate people. Ensure that medical attention is given as needed.

Assist with the implementation of training related to the quality care, welfare, safety and security of individuals; monitor work to ensure training is appropriately implemented.

Promote safe work habits and practices; recognize safety hazards and take appropriate supervisory action to prevent accidents and harm; ensure maintenance of a safe environment for staff and individuals; regularly observe staff and individuals to ensure they are free from self-injurious behavior, and/or others' aggression. Investigate staff and individual's injuries and accidents, and take appropriate action. Implement and supervise approved behavioral intervention programs. Ensure compliance with infection control.

Supervise and maintain individuals' confidentiality and HIPAA standards during verbal and written communications. Supervise the charting of direct care, comprehensive plan implementation, activities and actions, and safety concerns or approved behavioral intervention programs. Ensure that all information is communicated with appropriate staff. Maintain paperwork of administrative tasks such as timesheets, shift schedules, vacation requests, related schedules and information.

Performs related duties as required.
