§ 4. How to Claim Veteran's Preference or National Guard Preference

To claim veteran's preference, all eligible persons shall submit a DD Form 214, Certificate of Release or Discharge from Active Duty, along with a State Application for Employment (in the Applicant Tracking System or by paper Form PD-107-2022) to the appointing authority. The agency shall verify eligibility.

To claim National Guard preference, current members of the National Guard who are in good standing of either the NC Army National Guard or NC Air National Guard shall submit a copy of the NGB 23A (RPAS), along with a State Application for Employment (in the Applicant Tracking System or by paper form, PD 107-2022). Former members of either the NC Army National Guard or the NC Air National Guard, with honorable discharge and six years of creditable service shall submit a copy of the DD 256 or NGB 22, along with a State Application for Employment (in the Applicant Tracking System or paper form, PD 107-2022). The agency shall verify eligibility.

§ 5. Minimum Qualifications

To claim veteran's preference or National Guard preference, eligible veterans or National Guard members must meet the minimum training, education and experience requirements for the position for which applied and must be capable of performing the duties assigned to the position.

In evaluating qualifications, credit shall be given on a year for year, and month for month basis, for all military service training or schooling and experience which bears a reasonable functional relationship to the knowledge, skills, and abilities required for the position.

In determining minimum education and experience, related civilian experience should be evaluated prior to evaluating related military experience to give the veteran or National Guard member maximum credit for unrelated military service.

§ 6. Determining and Applying Credit

Veteran's preference or National Guard preference shall be accorded eligible veterans and National Guard members by giving credit as follows:

(1) Credit for numerically scored examinations:

In initial employment, subsequent employment, promotion, reassignment, and horizontal transfer procedures, where numerically scored examinations are used in determining the relative ranking of candidates, ten (10) preference points shall be awarded to eligible veterans.²

(2) Credit for unrelated military service:

In initial employment, subsequent employment, promotion, reassignment and horizontal transfer procedures where structured interview, assessment center, in-basket, or any other procedure, not numerically scored, is used to qualitatively assess the relative ranking of candidates, the eligible veteran or National Guard member who has met the minimum qualification requirements and who has less than four years of related military experience beyond that necessary to minimally qualify, shall also receive additional experience credit for up to four years of unrelated military service.

(Exception: Eligible spouses and dependents shall not receive additional experience credit for the veteran's unrelated military service.)

To determine the amount of additional experience credit to be granted for unrelated military service, first determine the amount of related military service possessed by the eligible veteran or National Guard member beyond that required to meet the minimum qualifications and:

- if the total of such experience equals or exceeds four years, the additional credit for

² If an agency uses numerically scored tests or exams during the selection process to rank applicants to determine who is referred or interviewed, 10 additional points shall be added to the final score of the numerically scored test or exam for eligible veterans and National Guard members. The 10 preference points are applied only to the part of the scoring that is from "numerically scored examinations." For example, if there were a three-part process where 25% of an applicant's score was based on a numerically scored examination, 25% of an applicant's score was based on review of sample work performed in an in-basket exercise, and 50% of the applicant's score was based on a structured interview, the 10 preference points apply only to the portion of the applicant's score that was based on a numerically scored examination, not to the final ranking of the candidates.

Veteran's & National Guard Preference Policy (cont.)

unrelated military service does not apply, but

- if the total of such experience is less than four years, the veteran or National Guard member shall receive direct experience credit for unrelated military service in an amount not to exceed the difference between the related military service and the 4 year maximum credit that may be granted.

§ 6.1. Applying the credit throughout the selection process

After determining the appropriate amount of preference points and/or military service credit to be awarded to the veteran or National Guard member, when assessing the applicants, the veteran or National Guard member should be assessed relative to other applicants but always using their score, ranking, or total experience that includes that military service credit.

§ 6.2. Examples

Example A: An eligible veteran or National Guard member has 2 years of related military experience beyond the minimum. The veteran or National Guard member also has 6 years of unrelated military service. Since the related military service beyond the minimum is less than 4 years, the eligible veteran or National Guard member receives 2 years credit for unrelated military service. [4 yrs. (maximum possible unrelated service credit) less 2 yrs. (related military service held by the applicant beyond that necessary for minimum qualification) = 2 yrs. (amount of the six years of unrelated service which can be credited)].

Example B: An eligible veteran or National Guard member has only enough related military service to qualify for the minimum, but has 2 years, 3 months of unrelated military service. This person will receive 2-years, 3 months experience credit. [4 yrs. (maximum possible unrelated service credit) less 0 (related military service beyond that necessary for minimum qualification) = 4 yrs. (4 yrs. could be credited for unrelated military service, however, the person in this instance can only claim 2 yrs., 3 mos., the actual amount of unrelated military service)].

§ 6.3. Reduction in Force

In reduction-in-force situations, when calculating length of service, the eligible veteran or National Guard member shall be accorded one year of state service for each year or fraction thereof of military service, up to a maximum of five (5) years credit. (This additional credit is not counted as total state service.)

§ 7. **Applying the Preference During Final Selection for Eligible Veterans or National Guard Members from Outside the State Government Structure**

This preference is not for current State employees who are seeking promotion, reassignment, or horizontal transfer. For initial employment or subsequent employment, after applying the military service credit to eligible veterans or National Guard members, the eligible veteran or National Guard member shall be hired when overall qualifications are substantially equal to the non-veterans or non-National Guard members in the most qualified applicant pool unless there are State employees with a priority as described under "Relationship to Other Priorities" below. Substantially equal qualifications occur when the employing agency cannot make a reasonable determination that the qualifications held by one or more applicants are significantly better suited for the position than the qualifications held by another applicant. Veterans'/National Guard preference, at the final selection stage, applies only to candidates from outside the State government structure with substantially equal qualifications who are among the most qualified candidates under G.S. 126-14.2(2).

For promotion, reassignment, and horizontal transfer, after applying the credit in Section 6 of this policy to veterans or National Guard members eligible veteran or National Guard member who is a current State employee receives no further preferences and competes with all other applicants who have substantially equal qualifications.

§ 8. **Relationship to Other Priorities**

If the selection decision is between a qualified non-State employee veteran or National Guard member and a substantially equivalent applicant with a priority described below, the applicant with the priority described below shall be selected:

Veteran's & National Guard Preference Policy (cont.)

- a qualified current State employee with career status who is seeking a promotional opportunity,
 - a qualified employee separated from an exempt policy-making or exempt managerial position for reasons other than just cause,
 - a qualified State employee with career status who is notified of or separated by reduction in force, or
 - an employee returning from workers' compensation leave.
-

§ 9. Appeals

Any claim or allegation that preference has not been accorded to an eligible veteran or National Guard member shall follow the agency grievance procedure.
